

## CATERHAM SCHOOL

7 May 2010

To Parents and Guardians of Lower Sixth Boarders

Dear Parents and Guardians

Re: Computer Access to the Internet

All Upper Sixth boarding pupils have the opportunity to have computer access to the Internet in their own study bedrooms. Pupils can lease a computer from the School at a cost of £165 per year. The cost of the hire charge will be added to the School bill in the Autumn Term 2010.

The computers will be serviced by the ICT Department and the School's ICT Policy regarding use of the Internet system will apply to the use of the computers in the study bedrooms. The School reserves the right to withdraw access to the School's ICT facilities for any pupils that abuse the system.

Pupils are not allowed to connect their own computers or laptops to the Internet system as this would undoubtedly lead to the introduction of viruses into the system.

Pupils will still have daily access to the School's ICT rooms and also ICT facilities within the boarding houses.

If you would like your daughter or son to lease a computer for use in their own study bedroom please complete the enclosed form and return it to me by Monday 14 June.

Yours sincerely

Jim Seymour  
Senior Teacher and Head of Boarding
