## CATERHAM SCHOOL

### **21 Caterham School pupils have been placed in the UK's top ten by exam subject**

Staff and pupils at Caterham School had cause for further celebrations following the recent examination results. Edexcel, the UK's largest exam awarding body, have just notified the School that 19 pupils achieved scores that placed them in the top ten in the country. Additionally, through the AQA exam awarding body, two pupils achieved marks that placed them in the top five in the country.

One pupil, Karen Erskine, achieved this distinction in two subjects - Geography and 3D Design.

Headmaster Julian Thomas said: 'I am really pleased for these twenty one pupils. This year many school records were broken and these top results set yet one more. I am also particularly pleased because these pupils have all made contributions outside the classroom. This reflects the School's philosophy which is that, to deliver a truly excellent education, we should seek to ensure that our students leave with a breadth and depth of experiences thereby helping to prepare them for life at university and beyond. I have no doubt that this rounded approach to education has contributed to their success.

This year we had a few upper 6<sup>th</sup> pupils who chose to take a Gap year but the remainder all went on to university with over 91% going to their first choice and 84% going to one in the top tier. Looking at these AS and GCSE records we are very optimistic about further success in the coming years.'

Headmaster Julian Thomas congratulates Karen Erskine
